

## Project Navigator

# Your Project Management Navigation System

"Guide and navigate your project team with an automated Project Management Navigation System."

### What is Project Navigator?

CoLAB's Project Navigator is an automated Project, Programme and Portfolio management methodology & toolkit. This easy-to-use web based platform will guide your project team through the process steps with relevant procedures, guidelines, templates and tools.

### What does Project Navigator include?

- A complete project, programme and portfolio management toolkit - everything required for the successful management of projects
- Simplified process maps, categorisation frameworks, quality standards, procedures, guidelines and templates
- Easy to use web-based navigation system
- Recommended for integrated use with the award winning PPO™ PMIS

### Who is Project Navigator for?

- Organisations who need a single consistent approach to delivering projects
- Those who need a single point of access and maintenance for their project methodologies
- Organisations who need to navigate complex methodologies for their people delivering projects

### How will your business benefit?

- The system centralises all of the processes and methodologies into one system
- Project management for your team is simplified to the required level of capability
- You receive every tool, document and methodology you will need to deliver your projects, all developed by project managers with extensive experience

Project Navigator will make managing your projects easier and more efficient. Contact us to talk about how CoLAB can guarantee your project success
